

goJim B2B Dashboard User Guide

Welcome to the **goJim Premium Gym Management Dashboard**! This comprehensive tool allows you to seamlessly manage your entire gym operations, from member tracking to trainer assignments and CRM.

1. Role Switching

At the bottom of the left sidebar, you will find a **Role Switcher** widget. This allows you to view the dashboard from different perspectives based on your staff permissions:

- **Gym Owner:** Full access to all top-level tabs (Overview, Classes, Leads CRM, POS, Settings, etc.).
- **Trainer:** Restricted view tailored to managing their specifically assigned clients, training schedules, and direct messages.
- **Student/Member:** Restricted view for a gym member to view their active plans, upcoming classes, metrics, and rate their assigned trainer.

2. Gym Owner View

2.1 Overview Dashboard

The default screen upon logging in. Here you will find:

- **Quick Actions:** Shortcuts to "Enroll New Member", "Add Trainer", and "Broadcast Message".
- **Key Metrics:** High-level KPIs such as Total Members, Check-ins Today, Total Revenue (in ₹), and Active Trainers.
- **Activity Log:** A chronological list of recent events.

2.2 Leads CRM

The CRM allows you to track potential new members through a Kanban-style pipeline:

- **Pipeline Stages:** New Leads -> Trial Booked -> Trial Done -> Converted to Member.

- **Capture Lead:** Use the form on the left side to input prospect details (Name, Telephone, Enquiry Date).
- **Managing Leads:** Move leads through the pipeline stages by clicking the action buttons on their cards.

3. Trainer Management

Click on **Add Trainer Profile** to onboard a new staff member. On the Trainer's card, you can see how many students are assigned to them. Clicking on this number will open a detailed modal showing exactly which members are under their supervision.

4. Member Management

Click **Enroll New Member** to open the intake form. Fill out the member's details and assign them to a specific Trainer. When switched to the **Student Role**, a member can see their assigned coach and click the **Rate Trainer** button to submit feedback.

5. Front Desk Kiosk Mode

On the bottom of the sidebar, the **Kiosk Mode** button launches a self-service check-in screen where members can type their phone number to check in.
